1. Executive Summary

The IRS CPIC (Capital Planning and Investment Control) Management System provides comprehensive investment lifecycle management for IT investments. The system is available in two solution configurations:

Solution A: Designed for consolidated investment management with 9 investments organized into Mission (4) and Foundational (5) categories, tracking 134 forms across the CPIC lifecycle phases.

Solution B: Designed for federal compliance with 15 investments organized into MAJOR (5), SIGNIFICANT (5), and INFRASTRUCTURE (5) categories, tracking 185 forms with OMB Exhibit 300/53 requirements.

Both solutions support 8 core workflows aligned with Treasury SPIKE tool reporting requirements.

Key Statistics

Component	Solution A	Solution B
Investments	9	15
Forms	134	185
Workflows	8	8
Dashboards	5	8
Functional Areas	22	22

2. Solution A - 9 Investments, 134 Forms

2.1 Mission-Focused Investments (4)

ID	Name	CD Owner	Budget	Health
INV-01	Taxpayer Services Modernization	Jim Keith	\$456M	Green
INV-02	Tax Processing Transformation	Miji Mathews	\$389M	Green
INV-03	Compliance Systems Enhancement	Eric Markow	\$234M	Yellow
INV-04	Filing Season Infrastructure	Craig Drake	\$178M	Green

Foundational Investments (5)

ID	Name	CD Owner	Budget	Health
INV-05	API Platform & Integration	Rob King	\$145M	Green
INV-06	Enterprise Infrastructure	Lou Capece	\$312M	Green
INV-07	Cybersecurity & Privacy	Houman Rasouli	\$267M	Yellow
INV-08	End User Digital Services	Tanya Chiaravalle	\$98M	Green
INV-09	IT Strategy & PMO	Courtney Williams	\$67M	Green

3. Solution B - 15 Investments, 185 Forms

3.1 MAJOR Investments (5) - OMB Exhibit 300, CIO Ratings

ID	Name	Owner	Budget	CIO Rating
MAJ-01	Integrated Enterprise Portal	Miji Mathews	\$520M	4
MAJ-02	Customer Account Data Engine 2	Terry Jackson	\$680M	3
MAJ-03	Integrated Submission & Remittance	Raymond Barnes	\$420M	4
MAJ-04	Enterprise Case Management	Eric Corbin	\$380M	2
MAJ-05	Enterprise Cybersecurity Program	Patricia Farrell	\$450M	4

3.2 SIGNIFICANT Investments (5) - OMB Exhibit 53

ID	Name	Owner	Budget
SIG-01	Return Review Program	Kevin McQuighan	\$180M
SIG-02	Enterprise Learning Management	Sandra Wilson	\$95M
SIG-03	Document Management System	Marcus Taylor	\$120M
SIG-04	Practitioner Services Platform	Lisa Chen	\$85M
SIG-05	Data Analytics Platform	James Mitchell	\$110M

3.3 INFRASTRUCTURE Investments (5) - Technical Budget

ID	Name	Owner	Budget
INF-01	Enterprise Network Services	Robert Anderson	\$280M
INF-02	Enterprise Data Centers	Michael Brown	\$320M
INF-03	Enterprise Cloud Services	Jennifer Lee	\$240M
INF-04	Enterprise Security Operations	David Kim	\$180M
INF-05	IT Service Management	William Davis	\$150M

3.4 Forms by Category (185 Total)

MAJOR Category (65 Forms): 13 forms per investment including OMB Exhibit 300, Monthly Status, EVM Reports, Risk Assessment, BCR, Quality Gates, Security Compliance, Vendor Performance, PIR, CIO Rating Self-Assessment, TechStat Prep, GAO Audit Support, Budget Execution.

SIGNIFICANT Category (60 Forms): 12 forms per investment including Exhibit 53, Project Status, Cost Performance, Risk Register, Scope Change, Testing Status, Security Assessment, Contract Management, Resource Allocation, Benefits Tracking, Operational Metrics, Quarterly Review.

INFRASTRUCTURE Category (60 Forms): 12 forms per investment including Technical Budget, Operations Status, Capacity Planning, Maintenance Schedule, Service Level, Incident Summary, Change Implementation, Configuration Status, DR Status, Security Posture, Network Performance, Infrastructure Metrics.

4. Workflows (8)

WF-01: Investment Creation & Approval

Phase: PRESELECT-SELECT | Duration: 8-12 weeks

Description: Complete investment proposal through governance approval

Steps: Draft Business Case -> Investment Screening -> Alternatives Analysis -> IRB Review -> CIO Approval

WF-02: Baseline Change Request (BCR)

Phase: CONTROL | Duration: 2-4 weeks

Description: Process for requesting baseline scope, cost, or schedule changes

Steps: PM identifies change -> BCR Form in SPIKE -> IPM Review -> Treasury CPIC Review -> OMB Notification

WF-03: Monthly Reporting Cycle

Phase: CONTROL | Duration: 10-15 days

Description: Monthly investment status reporting to Treasury/OMB (Due: 19th)

Steps: Data Collection (1st-15th) -> PM Review (15th-17th) -> CIO Comments (17th-18th) -> SPIKE Submission (19th)

WF-04: Project Initiation

Phase: SELECT-CONTROL | Duration: 2-3 weeks

Description: Transition from approved investment to active project execution

Steps: Project Charter -> Kickoff Meeting -> Baseline Establishment -> Resource Assignment -> Schedule Creation

WF-05: Risk Escalation & TechStat

Phase: CONTROL | Duration: 1-2 weeks

Description: Risk escalation and TechStat reviews (Trigger: >=30% variance)

Steps: Risk Identification -> Impact Assessment -> CIO Notification -> TechStat Scheduling -> Corrective Actions

WF-06: Annual Budget Submission

Phase: PRESELECT | Duration: 6-8 weeks

Description: Annual IT budget development and submission process

Steps: Budget Formulation -> IT Portfolio Summary -> Business Case Update -> Treasury Review -> OMB Submission

WF-07: Investment Health Assessment

Phase: CONTROL-EVALUATE | Duration: 3-4 weeks

Description: Periodic investment health evaluation with CIO ratings (1-4 scale)

Steps: Performance Data Collection -> Metric Analysis -> CIO Rating Assignment -> Action Plan Development

WF-08: Treasury Monthly CIO Review

Phase: CONTROL | Duration: As needed

Description: Treasury-led monthly investment performance reviews

Steps: Issue Identification -> Evidence Gathering -> CIO Briefing -> Action Item Tracking

5. Dashboards

Solution A Dashboards (5)

Dashboard	Endpoint	Description
Executive Dashboard	/api/dashboard/executive	Portfolio overview for CIO/executives

19. Privacy	20. Data Management	21. Performance
22. Evaluation		

Treasury SPIKE Tool Integration

Monthly Reporting Deadlines:

- 1st-15th: Data collection from investment teams
- 15th-17th: Portfolio Manager review
- 17th-18th: CIO comments and approval
- 19th: SPIKE submission to OMB

CIO Rating Scale (Solution B MAJOR Investments):

- 4: On Track - Meets all performance expectations
- 3: Minor Issues - Some concerns, actively managed
- 2: Significant Issues - Requires management attention
- 1: Critical Issues - Immediate action required

TechStat Triggers:

- Cost variance \geq 30%
- Schedule variance \geq 30%
- Key metrics \geq 30% out of range
